

HANDS OFF OUR PENSIONS!

This Tory-led Government have gone back on their promise in the Coalition Agreement, and are delaying the state pension age. 5 million people, currently in their 50s, could find themselves having to wait longer for their pension.

It will mean that when they come to retire in their 60s, thousands will have to wait up to 2 years longer for the pension they have worked hard for.

This broken promise is unfair and unacceptable.

Sign our petition to say no to these pension cuts - hands off our pensions!
